

BEFORE PRESS: THESE ITEMS ARE STILL OPEN

- Compositions (pages 2, 3, 4):** from IDMA's catalogue with IDMA's corrections. IDMA checks every line against the approved pack label before press. Strengths still to add: MITTHU-AP (must be an immediate-release Aceclofenac 100 mg + Paracetamol 325 mg tablet; 50 mg + 125 mg is banned), IMPROLAN-FC, IMPROVIT. Confirm the "per 5 ml" basis for IDCUF-AX, IDCUF-PLUS, IDCYP-PLUS and WOMI-G.
- IDCUF-PLUS (page 2)** carries the statutory warning for Chlorpheniramine + Phenylephrine combinations (MoHFW s.26A notification, Aug 2026). Do not remove it or set it smaller.
- Logo:** the supplied PNG is 225 x 112 px (143 ppi at 40 mm on the cover). Use IDMA's vector logo (AI / CDR / EPS / PDF), or a PNG at least 1000 px wide. **IMPROVIT image (page 4):** 877 x 891 px, about 240 ppi at 92 mm; use the original file if a larger one exists.
- Artwork file:** the layout PDF is RGB from a browser, with Type 3 fonts. It is **not plate-ready**: re-set it in CorelDraw or Illustrator with the colours below, or convert to CMYK (black text to K100 overprint) and outline the fonts. Font: Plus Jakarta Sans (free on Google Fonts; use the static TTFs).
- Prescription leaf:** each doctor's details; the doctor signs the proof. Page 3 representative and stockist are blank write-in lines (hand-written or stamped).

FILES

IDMA-Rx-pad-COVERS-RGB-LAYOUT-bleed-cropmarks.pdf	The 4 cover pages on 168 x 230 mm sheets: A5 trim, 3 mm bleed, crop marks, TrimBox and BleedBox set. Layout for imposition; convert or re-set before plating (item 4).
IDMA-Rx-pad-LEAF-A5.pdf	The prescription leaf (no bleed). Per-doctor details change on the black plate only.
IDMA-Rx-pad-COVERS-PROOF-A5.pdf	Covers at A5 trim size, for approval on screen or WhatsApp only. Not for press.
prescription-pad.html	Editable source. Open in Chrome to view.

CONSTRUCTION

PART	STOCK	PRINT AND FINISH
Front cover page 1 outside, page 2 inside	300 GSM art card (C2S)	4/4 CMYK. Back page 2 head-to-foot (work-and-tumble), so it reads upright when the cover is flipped up over the glued head. Matt BOPP lamination on the outside. Crease 10 mm from the head; no type within 3 mm of the crease on either face.
Leaves 100 per pad	70 GSM maplitho (JK, Century or TNPL)	2/0: PMS 186 U + Black. Red = rule, Rx, footer, and the IDMA watermark as a screen of the red (12% / 6%); keep it under ~15% after dot gain. Per-doctor details on black only: one red shell for all doctors. No bleed.
Back cover page 3 inside, page 4 outside	Option A: 350 GSM art card printed both sides. Option B (stiffer): two 130-170 GSM printed sheets pasted on both faces of 1.2-1.5 mm greyboard	4/4 CMYK, back head-to-head (work-and-turn). Page 3 faces the leaves; page 4 faces out. Matt BOPP lamination on page 4.
Binding	Padding gum at the head; top 10 mm of each leaf is blank for the gum. No perforation. Trim 3 sides to 148 x 210 mm after padding. If binding tape is added, tell IDMA first: pages 2, 3 and 4 then need 12 mm clear at the head.	

COLOURS

 Brand red	PMS 186 C (covers) / 186 U (leaf), or CO M100 Y85 K5
 Orange	CO M60 Y100 K0
 Navy band	C90 M70 Y40 K50: solid bands and large type only
 Small text	K100, overprint. Never a 4-colour build.
 Grey labels	K70 single plate
 Section bands	M12 Y5 (not below 8% tint)
 Table rules	0.25 pt, K25

CHECKS ON THE PROOF

- QR codes scan to WhatsApp +91 63878 78493 (pages 1 and 4: product list; page 3: new pad); decode checked on the layout file. Modules K100 only; keep the white border (19 mm overall, 0.46 mm modules, 4-module quiet zone). Scan the hard proof with a phone.
- White text in the navy bands is 7 pt or more, upright, paper white. Keep C, M and Y pulled back around reverse type; do not choke the navy.
- No text closer than 5 mm to the trim.
- Legend "For the use only of registered medical practitioners or a hospital or a laboratory" stays at the top of pages 1 to 4.
- Add no disease names or indications to the covers (DMR Act / Schedule J terms such as liver disorders, growth, height).
- One hard or wet proof of the covers before the run.
